

'They Don't Need To Meet You To Steal You'

A call claiming to be your bank, a message with a fake login page, a cloned card at checkout – three different tricks, one goal: your identity, in someone else's hands.

**NO BANK EVER ASKS FOR YOUR PIN OR OTP.
VERIFY BEFORE YOU TRUST. HELPLINE 1930.**

THE JOB WAS NEVER REAL - ONLY THE FEE WAS

A messaging-app recruiter offers a high-paying, work-from-home role - then asks for a "registration," "training," or "security" fee before you've even had an interview.

* MESSAGE OFFER: Earn \$5000/WEEK

A genuine employer never asks you to pay to get hired.
Verify the company directly.

HELPLINE 1930

Your Number, Stolen Without Touching Your Phone

A fraudster convinces your telecom provider to issue a duplicate SIM in your name. Your phone goes dead - and every OTP meant for you now lands in their hands instead.

If your signal suddenly disappears for no reason, call your bank immediately. Helpline 1930.

FALLING IN LOVE WITH A PROFILE THAT ISN'T REAL

Weeks of messages, promises, and a growing bond - then an emergency abroad, a stuck shipment, or a medical crisis that only your money can solve.

**IF YOU'VE NEVER MET THEM IN PERSON, DON'T SEND THEM MONEY.
VERIFY BEFORE YOU TRUST. HELPLINE 1930.**

LIKE. RATE. LOSE EVERYTHING.

Small tasks — **liking** videos, **rating** hotels — pay out **real money** at first, to earn trust. Then the “investment” needed to unlock bigger earnings **vanishes the moment** it’s paid.

A JOB THAT ASKS YOU TO PAY FIRST ISN'T A JOB — **IT'S A TRAP.** HELPLINE 1930.

SCANNING A CODE CAN EMPTY YOUR ACCOUNT

No one needs you to scan a QR code or enter your UPI PIN to send you money – only to take it. That one mix-up is the entire scam.

TO RECEIVE MONEY, YOU NEVER ENTER A PIN.
STOP AND VERIFY. HELPLINE 1930.

They Recorded The Call You Can't Take Back

A friendly video chat with a stranger turns into a screen-recorded compromising clip – followed by a demand for money to keep it from being sent to your family and contacts.

Don't pay - paying never makes it stop. End the call, block, and report immediately. **Helpline 1930.**

BORROW ₹5,000, OWE YOUR WHOLE LIFE

Instant approval, no paperwork, no credit check — then the app harvests your contacts and photos, and threatens to shame you to everyone you know unless you pay far more than you borrowed.

A real lender never threatens your contacts.
Report the app, don't pay the fear. **HELPLINE 1930.**

'FORWARDED DOESN'T MEAN TRUE'

A viral message spreads faster than the facts behind it ever could.
One pause to check the source can stop panic, rumours, or
a scam before it reaches someone else.

Before you forward it - check who, why, and where.
Verify, then share. Helpline 1930.

'THE FIRST HOUR DECIDES EVERYTHING'

Cyber fraud can often be reversed - but only if you act fast.
Every minute of delay makes the money harder to trace back.

Don't wait. Call the helpline the moment it happens.
